

UNDER THE INFLUENCE (4:30)

©2006 Ken Glaser

Am G C G
My body's feeling rubbery, my vision's all a blur
I cannot walk a straight line, I think the cops would concur
I've lost my power of reasoning, cannot really speak
Need cue cards to remember my name, and I haven't slept in weeks

F G F G F G Am
Cause, I'm under the influence, I'm under the influence, I'm under the influence of you

This isn't really me, I'm usually fine
But I think about your blue eyes, and nearly lose my mind
The joy of knowing that I found, the coolest little girl around
Your boundless creativity, the charming way you talk to me

I'm under the influence, I'm under the influence, I'm under the influence of you
I'm under the influence, I'm under the influence, I'm under the influence of you

Am arpeggio

D7 Am, Em, Am
I'm reaching out I'll take a stand I'm asking you to hold my hand
Graceful woman You excite me Yin and yang we fit completely
F C C+Em Am A7
I'll do what is right, if it takes all night, then you'll know
F G Am, G, C, G
No one I've loved before, compares to you

I'll put my cards on the table, my life has really changed
Since the moment we met, you've driven me insane
When I'm with you, I'm buzzed all the time, don't need no liquor, need no wine
Only need to touch you, wanna be close, lip to lip, gonna make a toast

I'm under the influence, I'm under the influence, I'm under the influence of you
I'm under the influence, I'm under the influence, I'm under the influence of you

Of you
Love you

LOGICAL CONCLUSION (4:55)

© 2004 Ken Glaser

5/4: G, F, Em

In my book of dreams, I have drawn a scene, now I want to show you
How I realized, there's magic in your eyes, and music in all you do

What I hope to find, to satisfy my mind, is love and inspiration
Chemical effects, new idea connects, magnificent relation

Now I, don't know about you, but I am ready, ready
to take this to, its logical, conclusion, conclusion

Stay as you are, I've nothing to hide, it would cool with you on the ride
In this new context, grant me this wish, be mine always, like Gomez and Tish
When I'm with you, I feel so alive, that I'm gonna live, till a hundred and five
Don't you know I'm a passionate man, to know you a little better I'll do, anything

In your book of dreams, have you ever drawn a scene, where we were embracing
You were my queen, and I was your king, and we had everything

Now I, don't know about you, but I am ready, ready
To take this to, its logical, conclusion, conclusion

For fortune and fame, for seasonal games, for growing together
Who'll make the move, what is left to prove, to take us there forever

Now I, don't know about you, but I am ready, ready
Let's take this to, its logical, conclusion, conclusion

Do you realize what you mean to me and what it means if you don't agree
And I'm falling and there's no net
Has my motivation overcome your hesitation ... yet?
I'm waiting for the answer, won't you help me, change the world
Will I get the call, or will I quietly fall, and fadeout, fadeout

ANOTHER LAP AROUND THE SUN (4:40)

© 2002 Ken Glaser

B *Ebm* *E* *B*
As we gather, on this ship, to celebrate the year-
E *B* *Gb*
There's so much to look back upon
B *Ebm* *E* *B*
All the trends, and shows that end, and stories from back home
E *Gbsus-Gb*
And all the friends who've come and gone
E *Gb* *B* *Ebm* *Abm*
We basked in many pleasures, and suffered random pain
E *Gb* *Ab*
We're stronger now we're dancing in the rain
E *Gb* *B* *Ebm* *Abm*
But now that journey, is complete, it's time to start again
E *Gb*
All aboard, join me on the run, on
E *Gb* *Abm*
Another lap around the sun
E *Gb* *Ab*
Another lap around the sun

One direction, steady speed, the wind beneath our wings
Freedom balanced on the waves
All the creatures in the kingdom, all the living things
All depend on what we save
Beyond the clouds, the rainbow proud, the sky from dusk to dawn
Beauty in the music all along
Change will come, when our hands are numb, from working in the clay
Everyday, life forever fun, on
Another lap around the sun

*instr: E, Gb, Abm *3; Bb-B Db Ab *2; Gb E Gb Abm, E Gb Ab; KEY UP to A*

<i>C, Em, F, C;</i>	Another hundred times around, and we will all be gone
<i>F, C, G</i>	We'll disembark, forever shine
<i>C, Em, F, C</i>	And those who journey after us, one day they'll gather round
<i>F, Gsus/G</i>	In a better world that we designed
<i>F, G, C-Em-Am;</i>	And as the dream takes shape, our children's children are the key
<i>F, G, A</i>	Their voices crystal clear in harmony
<i>F, G, C-Em-Am;</i>	Songs of love to help the strangers think and feel as one
<i>F, G, C-Em-Am</i>	Then at last the criminals, will surrender all their guns, on
<i>F, G, Am</i>	Another lap around the sun
<i>F, G, A</i>	Another lap around the sun <i>Instr: F, G, Am *3; F, G, A.</i>

FOR A DAY (3:20)

© 2000 Ken Glaser

I would like to trade for a day; see how life treats you
Learn your emotions, reactions, what it means to be you

Would you like to trade for a day; find out all that makes me "me"
You could know how I know, and see what I see

I will know; you
You will know; me
We will know; each other now

If we were to trade for a day; I would surely try
To bond with your soul, to learn, why you laugh and you cry

If we had this magic for a day, think of all that you could do
In my skin, you would know, how it feels to make love to you

I will know; you
You will know; me
We will know; each other now

I would like to trade for a day; see how life treats you
Learn your emotions, reactions, what it means to be you

What it means to be you
What it means to be you
What it means to be you

SUPER HERO (3:30)

© 2004 Ken Glaser, John Mendoza, Ken Iglima

F#m

Dbm, D, E

Warriors from beyond the stars
Have reached the edge of the milky way
Negotiation tried and failed
But the ship holds only one

with weapons more advanced than ours
heading here to, dominate
we need an army to kick some tail
who will risk it, all, to save our home

Who's gonna save the world
A true Super Hero

And get to kiss the girl

Blasting off he navigates
And patches in with his midi line
As he encounters the enemy
"Earth is ours, don't even try

around the sun, he accelerates
power up, through, space and time
gives them the finger by telepathy
turn back, bastards or, you-are-gonna die-die-die"

He's gonna save the world
A true Super Hero

And get to kiss the girl

(instr)

They fire on his ship from all around
Pops in a CD and presses play
The rock and roll makes them go insane
"No matter the battle, until it is done

he needs a miracle to shut them down
sends it to the aliens through hyperspace
they send a message to their central brain:
American soldiers never run run run!"

He has saved the world
A true Super Hero

And gets to kiss the girl

WILL YOU? (3:45)

© 2004 Ken Glaser

Verse 4/4: C, Am, Em, G

Chorus 13/4: C, Em, G

Ever since the day my eyes met yours
Upside down and inside out

I haven't been the same
my friends think I'm insane

Cause I lie awake at night
It's just a simple question

with something swirling through my mind
hope it reaches you in time

Got to gather up the courage
Here it is

guess it couldn't hurt to try
I await your reply

Will you marry me

a house becomes a home
we'll never be alone

Will you marry me

music all the time
we'll make the perfect rhyme

What do you say?

What do you say?

Is there such a thing as magic?
If so you'll be my very own

is there a god above?
to have and hold and love

Girl don't keep me waiting
I can't help feeling how I feel

you know every minute counts
cause I want you all around

With just one word you can make it real
All I want's a happy ending

then you and I'd be fine
my heart's on the line

Will you marry me
Will you marry me
Will you marry me
Will you marry me

a house becomes a home
we'll never be alone
music all the time
we'll make the perfect rhyme

Will you marry me?

THERE IS LOVE (4:40)

©2006 Ken Glaser

We are floating in oceans
The dawn of creation
Like sand into glass
With meaning intrinsic

of tactile sensation
evolution's
genetic material
we have become

observing the game
transformation
blended and cast
human at last

There is love!

It expresses itself
Night turns to day

in so many ways
the howl of a wolf

seed turns to flower
a child at play

It's the bond between brothers
Owner and pet

father and mother
teacher and student

the tame and the wild
never forget:

CHORUS

There is love across the universe
There is life in every molecule

There is love among the stars
And this gift of love is ours

BRIDGE

We need people to rock the boat
People to join their hands together

People to fulfill every need
People to look for people to feed

So come on, raise your voices higher
All in your head it's all in your head
That is the meaning of ...

Hawk fly with the Dove
Is this what you're thinking of?

Love (There is god in all the details) across the universe
There is love (Intelligence in a grain of sand) among the stars
There is life (There is power in every thought) in every molecule
And this gift (Love, in the palm of your hand) of love is ours

An infinite field
Rational thinking

will finally reveal
from sentient beings

meaning and purpose
at each other's service

More than just vision
Now stake your claim

it is *your* decision
and there will be peace

to join in the game
in the heavens above

There is love (There is god in all the details) across the universe
There is love (Intelligence in a grain of sand) among the stars
There is life (There is power in every thought) in every molecule
And this gift (Love, in the palm of your hand) of love is ours

There is love (There is beauty in every single moment) across the universe
There is love (Wisdom in each phase of the moon) among the stars
There is life (There is joy in pure existence) in every molecule
And this gift (Truth in every tune) of love is ours

I DREAM IN STEREO

© 2006 Ken Glaser

I dream ... in stereo

When I lay me down to sleep, the images are dark and deep.
And fragments of the action will confuse.
The great debate is "Do you dream, in black & white, or blue and green?"
But vision's not the sense that I would choose.

I dream in stereo. Harmony in 3-D, melody surrounds me.
I dream in stereo. Listening to Hi-Fi, sounds a little Sci-Fi-Oh.

My friends don't agree with me, when they turn in they want to see.
Bikinis falling off at their command.
When REM sets in I want to hear, a symphony with voices clear.
A psychedelic new wave marching band.

I dream in stereo. Harmony in 3-D, melody surrounds me.
I dream in stereo. Listening to Hi-Fi, sounds a little Sci-Fi-Oh.

I'm looking forward to the night	(I dream in stereo)
Separate channels left and right	(I dream in stereo)
Video's a drag for me	(I dream in stereo)
I disconnected MTV	

I dream ... in stereo

GOTTA GET EVEN (5:05)

© 2004 Ken Glaser

Am I just an actor, cast into your play?
Providing my own dialogue, changing every day?
Or am I just prop, a doll without a heart?
And do you use my pain as inspiration for your art?

I pursued it on the grounds, that you had sealed it with a kiss
But you've broken every covenant, displayed upon our list
I've been a good boy, until nowwwwwwwatch me lose control
For my exit is approaching, and some heads are gonna roll

I gotta get, gotta get even I gotta get, gotta get even

You're wasting my time and you're taking up space
And I'm gonna get even with the human race

You recognized my weakness, you emphasized your style
You played me for a fool, I kept it cool for just a while
Now I will not be your scapegoat, I do not accept the blame
I don't care who has come before, I will not play your little game

I'm a living, breathing, being, and I want respect from you
You needy, greedy, demon, cannot tell me what to do
You've thrown me out of balance, my account is running low
Now my exit is approaching, and some heads are gonna roll

I gotta get, gotta get even I gotta get, gotta get even

It's time to, put you, in your place
And I'm gonna get even with the human race

This victim now a victimizer, totally obsessed
With teaching you a final lesson, though thoughtfully expressed
'Cause your character, finally, revealed it in the end
That you wouldn't need a lover, and you couldn't feed a friend

I told you I was serious, you told me I was wrong
And this is how I'm getting even, you are in this song,
'Cause, revenge is just a dish, very sweet and best served cold
Now my exit is approaching, and some heads are gonna roll

I gotta get, gotta get even I gotta get, gotta get even

That's my story gonna rest my case
And I'm gonna get even with the human race

VOCABULARY (2:20)

© 1996 Ken Glaser

From the ocean, from the valley,
from the mountain, he is here.

From the right side, from the left side,
from the inside, she is here.

From the volume, from the texture,
from the rhythm, they are here.

From the planets, from the starlight,
from the cosmos, you are here.

From the beginning, to the end,
and back again, we are here.
