© 1997-2007 David Glaser

There's a place down on Old Blue Ridge  
Where few folks have ever gone before  
There's an infinite view, of warm silent waters  
A little magic, a lot of love, and more

I took a ride up there, with my girlfriend  
Just like me, she wants to try it all  
No turning back, when you're standing at the edge  
We close our eyes; reaching for the skies

All the pieces, now fall-into-place, and all the, landmarks  
We pass on our way  
Are startin' to fly now, into outer space, keep your hands on the wheel  
We're startin' to fly

There's a place they call Old Blue Ridge  
And few folks will ever remain the same  
After intimate views, of warm silent waters  
New opinions, new emotions, a new name

All the pieces, now fall, into, place, and all the landmarks  
We pass on our way  
Are startin to fly now, into outer space, keep your hands on the wheel  
We're startin to fly

We're startin to fly	startin to fly
We're startin to fly	startin to fly
We're startin to fly	startin to fly
We're startin to fly	startin to fly now

**UNDER THE INFLUENCE (4:30)**

© 2006 Ken Glaser

Am G C G  
My body's feeling rubbery, my vision's all a blur  
I cannot walk a straight line, I think the cops would concur  
I've lost my power of reasoning, cannot really speak  
Need cue cards to remember my name, and I haven't slept in weeks

F G F G F G Am  
Cause, I'm under the influence, I'm under the influence, I'm under the influence of you

This isn't really me, I'm usually fine  
But I think about your blue eyes, and nearly lose my mind  
The joy of knowing that I found, the coolest little girl around  
Your boundless creativity, the charming way you talk to me

Am arpeggio

I'm under the influence, I'm under the influence, I'm under the influence of you  
I'm under the influence, I'm under the influence, I'm under the influence of you

D7 Am, Em, Am  
I'm reaching out I'll take a stand I'm asking you to hold my hand  
Graceful woman You excite me Yin and yang we fit completely  
F C C+Em Am A7  
I'll do what is right, if it takes all night, then you'll know  
F G Am, G, C, G  
No one I've loved before, compares to you

I'll put my cards on the table, my life has really changed  
Since the moment we met, you've driven me insane  
When I'm with you, I'm buzzed all the time, don't need no liquor, need no wine  
Only need to touch you, wanna be close, lip to lip, gonna make a toast

I'm under the influence, I'm under the influence, I'm under the influence of you  
I'm under the influence, I'm under the influence, I'm under the influence of you

Of you  
Love you

## SERMON ON THE MOUNT (5:00)

© 2002-2007 Ken Glaser

Here you sit between the speakers, man  
Will you please put down your drink?  
I'm here to present my plan  
I wanna know what you think

First we'll gather the thousands, then honor the one  
Who silences thunder, as we circle the sun

You see, I want to make it all right, friend  
But by and large, by all account  
This is only a rant, sistah  
We want your sermon on the mount  
Let's hear your sermon on the mount  
Give us your sermon on the mount

This ain't no intermission, dear  
Let's get one thing straight  
I'm gonna put you in charge, here  
And set a tentative date

I wanna blow the lid off their scheme, son  
They want your sacrifice  
All your spirit and passion  
There's no need to think twice

We've studied the millions, but it takes only one  
To silence the thunder, as we circle the sun

You see, I want to make it all right, friend  
But by and large, by all account  
This is only a rant, dad  
We want your sermon on the mount  
Let's hear your sermon on the mount  
Give us your sermon on the mount

Now get up off the couch, kid  
And put down that drink  
It's time for you to deliver  
Tell them what you think

We counted the billions, and you are the one  
Now silence the thunder, as we circle the sun

You see, I want to make it all right, friends  
But by and large, by all account  
This is only a rant, ma  
We want your sermon on the mount  
Let's hear your sermon on the mount  
Give us your sermon on the mount

## THERE IS LOVE (4:40)

© 2006 Ken Glaser

We are floating in oceans  
The dawn of creation  
Like sand into glass  
With meaning intrinsic

of tactile sensation  
evolution's  
genetic material  
we have become

observing the game  
transformation  
blended and cast  
human at last

There is love!

It expresses itself  
Night turns to day  
It's the bond between brothers  
Owner and pet

in so many ways  
the howl of a wolf  
father and mother  
teacher and student

seed turns to flower  
a child at play  
the tame and the wild  
never forget:

### CHORUS

There is love across the universe  
There is life in every molecule

There is love among the stars  
And this gift of love is ours

### BRIDGE

We need people to rock the boat  
People to join their hands together  
So come on, raise your voices higher  
All in your head it's all in your head  
That is the meaning of ...

People to fulfill every need  
People to look for people to feed  
Hawk fly with the Dove  
Is this what you're thinking of?

Love (There is god in all the details) across the universe  
There is love (Intelligence in a grain of sand) among the stars  
There is life (There is power in every thought) in every molecule  
And this gift (Love, in the palm of your hand) of love is ours

An infinite field	will finally reveal	meaning and purpose
Rational thinking	from sentient beings	at each other's service
More than just vision	it is <i>your</i> decision	to join in the game
Now stake your claim	and there will be peace	in the heavens above

There is love (There is god in all the details) across the universe  
There is love (Intelligence in a grain of sand) among the stars  
There is life (There is power in every thought) in every molecule  
And this gift (Love, in the palm of your hand) of love is ours

There is love (There is beauty in every single moment) across the universe  
There is love (Wisdom in each phase of the moon) among the stars  
There is life (There is joy in pure existence) in every molecule  
And this gift (Truth in every tune) of love is ours

## LOGICAL CONCLUSION (5:00)

© 2004 Ken Glaser

5/4: G, F, Em In my book of dreams, I have drawn a scene, now I want to show you  
How I realized, there's magic in your eyes, and music in all you do

What I hope to find, to satisfy my mind, is love and inspiration  
Chemical effects, new idea connects, magnificent relation

Now I, don't know about you, but I am ready, ready  
to take this to, its logical, conclusion, conclusion

Stay as you are, I've nothing to hide, it would cool with you on the ride  
In this new context, grant me this wish, be mine always, like Gomez and Tish  
When I'm with you, I feel so alive, that I'm gonna live, till a hundred and five  
Don't you know I'm a passionate man, to know you a little better I'll do, anything  
Anything!

In your book of dreams, have you ever drawn a scene, where we were embracing  
You were my queen, and I was your king, and we had everything

Now I, don't know about you, but I am ready, ready  
To take this to, its logical, conclusion, conclusion

For fortune and fame, for seasonal games, for growing together  
Who'll make the move, what is left to prove, to take us there forever

Now I, don't know about you, but I am ready, ready  
Let's take this to, its logical, conclusion, conclusion

Do you realize what you mean to me and what it means if you don't agree  
And I'm falling and there's no net  
Has my motivation overcome your hesitation ... yet?  
I'm waiting for the answer, won't you help me, change the world  
Will I get the call, or will I quietly fall, and fadeout, fadeout

*B* *Ebm* *E* *B*  
As we gather, on this ship, to celebrate the year  
*E* *B* *Gb*  
There's so much to look back upon  
*B* *Ebm* *E* *B*  
All the trends, and shows that end, and stories from back home  
*E* *Gbsus-Gb*  
And all the friends who've come and gone  
*E* *Gb* *B* *Ebm* *Abm*  
We basked in many pleasures, and suffered random pain  
*E* *Gb* *Ab*  
We're stronger now we're dancing in the rain  
*E* *Gb* *B* *Ebm* *Abm*  
But now that journey, is complete, it's time to start again  
*E* *Gb*  
All aboard, join me on the run, on  
*E* *Gb* *Abm*  
Another lap around the sun  
*E* *Gb* *Ab*  
Another lap around the sun

One direction, steady speed, the wind beneath our wings  
Freedom balanced on the waves  
All the creatures in the kingdom, all the living things  
All depend on what we save  
Beyond the clouds, the rainbow proud, the sky from dusk to dawn  
Beauty in the music all along  
Change will come, when our hands are numb, from working in the clay  
Everyday, life forever fun, on  
Another lap around the sun

<i>F, G, A</i>	Their voices crystal clear in harmony

**LEAVE IT UP TO YOU (4:00)**

© 2007 Ken Glaser

Night after night I hold back the tears  
And memories are fading away  
Of day after day when we were together  
Happy December to May

But now we're apart and it's breakin' my heart  
And I've done all that I can do, now I'll leave it  
Up to you  
Leave it up to you

So many times I pick up the phone  
But can't bring myself to dial  
You said you needed time on your own  
I'll look at your pictures and smile

Fires will burn, until you return,  
And you make my dream come true, I'll leave it  
Up to you  
Leave it up to you

I finally found, the one that I love, the one that I need  
I finally learned, that love is in the moment, and never guaranteed  
I want you, all of the time  
I'm ready, will you be mine?

Now half of me's gone, I'm barely alive,  
Cause you're half a world away  
How could you expect that I would survive  
When my whole world has turned all gray

I should take a plane, instead I'll remain  
Cause I know just what I should do, just leave it  
Up to you  
Leave it up to you

## CRADLE TO GRAVE (5:15)

© 1989-2007 Ken Glaser

Em, C, G, D: All aboard, on a journey through space and time.  
On our way, on a mission for peace of mind.

From galaxy to galaxy we're planting the seed.  
A flower that can change its form according to need.  
Teaching young inhabitants to master the sound.  
In this way we harmonize with all that surrounds.

Sail away, on the ocean of cosmic rays.  
Now we see, in its brilliance the dawning day.

Destination Earth we have a gift for mankind.  
Abolishes the hate and leaves the beauty behind.  
Awakening the vision, the melody flows.  
Unlocking magic rhythm, energizing the soul.

On our way, on this journey through time and space.  
Destiny, past and future meet face to face.

Em, D, G Ready for salvation, triumphant education  
Granting absolution, we pray for evolution,

It has no beginning, it will never end.  
A universe enlightened, by thoughts that we send.  
All the living things we've seen, have to be saved.  
Let-us-weave, threads-of-love, from cradle to grave.

Fantasy, merging what is and what can be.  
Dream away, live as one for eternity.

Em, D, G Ready for salvation, triumphant education  
Granting absolution, we pray for evolution,

c, D, G We've come from far away to find you.  
All the while within, without you.  
Spread your wings and fly.

recitation: *Now we advance to the final phase of the journey.  
The fabric of time has already begun to dissolve beneath us.  
We are floating down, spiraling down the vortex.  
Reversing the millennia.*

*As we head toward the point of singularity, eternity is expressing itself as a ray of light.  
With infinite will, we become one with the light.  
All is light, pure white light. No center, no boundary, no dimension.*

*Now is the moment of realization.  
The image collapsing, as slivers of darkness shatter the continuum.  
We have arrived. We have arrived. We have arrived – again.*

**I DREAM IN STEREO (3:35)**

© 1987-2006 Ken Glaser

I dream ... in stereo

When I lay me down to sleep, the images are dark and deep.  
And fragments of the action will confuse.  
The great debate is "Do you dream, in black & white, or blue and green?"  
But vision's not the sense that I would choose.

I dream in stereo. Harmony in 3-D, melody surrounds me.  
I dream in stereo. Listening to Hi-Fi, sounds a little Sci-Fi-Oh.

My friends don't agree with me, when they turn in they want to see.  
Bikinis falling off at their command.  
When REM sets in I want to hear, a symphony with voices clear.  
A psychedelic new wave marching band.

I dream in stereo. Harmony in 3-D, melody surrounds me.  
I dream in stereo. Listening to Hi-Fi, sounds a little Sci-Fi-Oh.

I'm looking forward to the night	(I dream in stereo)
Separate channels left and right	(I dream in stereo)
Video's a drag for me	(I dream in stereo)
I disconnected MTV	

I dream ... in stereo

## GETTING OFF (3:20)

© 1990-2007 Ken Glaser

A Listen, Dr. Spock, I think my brain is catching fire.  
Gimme two more Valium, I'm ready to retire.  
D I'm tryin' to spend my time at rhyme and verse and poetry.  
A So Wednesday afternoon I'll put my foot through the TV.

E D A E  
Yeah, Yeah, I'm getting off.

"Set me free or give me death" the passenger said.  
Ha! The traffic's getting heavy dude you're better off dead.  
He's kickin' at the carpet, while I empty out his fridge.  
And Thursday, I will drop him from the Verazzano Bridge.

Yeah, Yeah, I'm getting off.

D She's getting in the elevator, closing the door.  
A I'm pushing all her buttons, pushing harder for more.  
D And tell her "Honey, obviously I never fail."  
E B E  
On Friday afternoon my lawyer's posting the bail.  
D A E  
I'm getting off. I'm getting off.

Have no control of feelings, feelin' funny inside.  
The people that I love are dying right before my eyes.  
I'm drinking from the fountain, then I'm strapping on my wings.  
On Saturday I'm telling Jane to stop this crazy thing!

Yeah, Yeah, I'm getting off.
